### 1 Add New Role Button

I had this as a plus about the list of Roles in previous wireframes.. would like to test to see where people would click..

### 2 Role Description

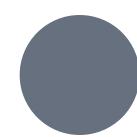

This should be editable by the Role's creator.. with a nudge to use layman's terms + keep it short..

### 3 Accordion

These can be expanded on default, but for Roles that have 100s, like System Admin, there should just be an expandable snapshot of the Permissions

### 4 Reordering Roles List

Drag + drop I think would be ideal.. This can mimic the Q-Builder behavior via auto-collapsing upon dragging + "Move to Bottom//Top"

# Create a Scenario

## \* Scenario Title

Add Public Title

Private Scenario Title

## Overview

Provide a short description of what will happen in this scenario.

## Status

Development

## Organization

Joe's Hospital

A scenario hosts a set of pre-configured evaluations and annotations which can be used to automatically configure a session.

Once this scenario is set to **active** and used in sessions, reports can be ran against it.

## Participant Types

- Confederate
- Operator
- Patient
- Trainee

## Simulators

- BabySIM®
- CathLabVR
- Caesar
- ECS® (Older)

# Configure a Scenario

## • Self-Assessment Evaluations

**Self-Assessment Evaluations** will be filled out by the session participants. They will receive the evaluation once the session has been **completed** and can fill it at any point there.

Add New Evaluation

Copy From Existing

## • Session Evaluations

**Session Evaluations** will be filled out by the **proctors** and **faculty** members to assess the participant taking the scenario. They will receive the evaluation once the session has been started and can be filled out from any point thereafter.

Add New Evaluation

Copy From Existing

# Filtering for a Specific User, cont'd.

The screenshot shows the simcapture® software interface with the following elements:

- Top Navigation:** simcapture® (blue), Sessions, Users, Scenarios, Reports, Settings gear icon, Search magnifying glass icon, Help question mark icon, and a notification badge (11) with a dropdown arrow.
- Section Header:** **Users** (with a user icon).
- Buttons:** Create New User, Batch User Import.
- Text Input:** Start typing to apply a filter.. hit enter to add another..
- Filter List:** Here's a list of filters you can use to find what you're looking for.. Click one to begin:
  - Institutional Filters:** Role, Organization, Date Last Active, Active / Inactive, Class, Username, User Number, Email.
  - Physical Filters:** Age, Gender, Race, Height, Weight.
  - Personal Filters:** Birthdate, First Name, Middle Name, Last Name.
- Text:** Hide List.
- Auto-Applied Filter:** Only showing users active after Jan. 1, 2014 (with a close button).
- User Table:** A grid showing user details:

<input type="checkbox"/>	Name	Role	Organization	Last Activity
<input type="checkbox"/>	1, 1	System Admin	B-Line Medical University	Dec 16, 2014 10:07 AM
<input type="checkbox"/>	1234, 1234	System Admin	B-Line Medical University	Nov 12, 2014 2:17 PM
